

Clean 13

Children's Dental Benefit for 0-13 Years

Every Child Needs to See the Dentist! Tooth decay can cause a child serious pain, making it hard to eat, sleep and pay attention in school. Make sure your child sees a dentist twice a year to help their teeth grow healthy and strong. Great dental care habits like brushing and flossing start at home, but your child's teeth need to be examined by a dentist – even before they've all come in!

SMALL BITES

-  **DO** clean your baby's gums and teeth from birth.
-  **DO** take your child to the dentist by age 1 or 6-months after the first tooth comes in.
-  **DON'T** wash a pacifier with your own mouth.
-  **DON'T** give milk, juice or other sugary drinks at naptime or bedtime.

SMALL BITES

- 7** **DO** take your child to the orthodontist by age 7.
-  **DO** supervise your child's brushing until age 8 and flossing until age 10.
-  **DO** discuss sealants with your child's dentist as the permanent molars come in.
-  **DON'T** forget that healthy meals and snacks are the key to good oral health.
